BISCUIT LAYING INSTRUCTIONS

Prima di iniziare il processo di installazione, assicurarsi che la superficie di posa sia livellata e sia stata accuratamente pulita. Per una corretta installazione è essenziale l'utilizzo di adesivi conformi ed adeguati alla destinazione d'uso. Per installazioni in ambienti umidi, come bagni e docce, per evitare l'infiltrazione di acqua, assicurarsi di impermeabilizzare in modo corretto la superficie di posa, utilizzando prodotti specifici a tal fine. In corrispondenza di tagli, avere cura di sigillare la zona interessata con silicone, così da evitare ulteriori infiltrazioni di acqua.

Before starting the installation process, make sure that the surface is level and has been thoroughly cleaned. For proper installation, it is essential to use adhesives that are compliant and suitable for the intended purpose. For installations in humid environment, such as bathrooms and showers, it is highly recommended to properly waterproof the laying surface using specific products for this purpose to avoid any water infiltration. In case of cuts, take care in sealing the affected area with silicon so as to avoid any further water infiltration.
