## BUSINESS RIGENERATIVO

È in corso un **cambiamento culturale** epocale di cui siamo orgogliosi di essere parte. Uno dei principi fondamentali di tutte le B Corp è quello di adottare un business rigenerativo che si contrappone a quello estrattivo.

Rigenerare significa non solo diminuire l'impatto sulla natura e sull'ambiente che ci circonda, ma addirittura produrre effetti positivi, creando valore condiviso nella società e rigenerando la biosfera.

Diventano B Corp solo quelle aziende che misurano il loro impatto complessivo attraverso il Benefit Impact Assessment (BIA) superando il punteggio di 80 (in una scala da 0 a 200) ed entrando così in una élite di imprese **rigenerative**. Chi non supera questa soglia viene considerata **azienda estrattiva** ovvero per funzionare consuma risorse economiche, sociali e ambientali superiori di quanto sia in grado di generare come output.

## REGENERATIVE BUSINESS

An historical **cultural shift** is under way, of which we are proud to be a part. One of the underlying principles of all B Corps is the adoption of a regenerative business model as opposed to an extractive one.

Regenerating means not only reducing the impact of business on our surrounding nature and environment, but also producing **positive effects, creating shared value in society and regenerating the biosphere.**

Only those companies that measure their overall impact through the Benefit Impact Assessment (BIA) exceeding the score of 80 points can be certified as B Corp, joining an elite of **regenerative companies**. Anyone who does not exceed this threshold is considered an **extractive company** or, in order to function, they consume higher economic, social and environmental resources than they are able to generate as output.

## IL PUNTEGGIO DI FLORIM

Il punteggio conseguito da Florim Italia è di 98,1 punti e il consolidato, che comprende la consociata americana, è di 90,9 punti. Così Florim rientra tra le migliori B Corp al mondo.

Sono oltre 140.000 le aziende che stanno cercando di ottenere la certificazione, nel rispetto di **severissimi standard di trasparenza e sostenibilità.**

Solo il 3% riesce a superare l'iter di verifica imposto da **B Lab**, ente certificatore di origine americana che oggi opera a livello globale.

## FLORIM'S SCORE

Florim Italia score is 98.1 points and the consolidated, which includes the American subsidiary, is 90.9 points. Florim is now one of the best B Corps throughout the world.

More than 140,000 companies are currently seeking to obtain the certification **in compliance with the strictest transparency and sustainability standards.**

Only 3% manage to pass the verification process implemented by **B Lab**, the US certifying body that currently operates on a global scale.

Progettare è un processo permanente di riflessione in cui seguire un percorso logico pur lasciando spazio alle emozioni, per questo Floorgres ha deciso di riprogettare la serie STONTECH che da tempo accompagna il suo modo di interpretare l'abitare.

Nuove superfici, nuovi formati e 3 differenti finiture compongono un racconto contemporaneo attento al dettaglio secondo la filosofia del marchio.

Due marmi in finitura high-glossy regalano alla serie frammenti di luce preziosa e i grandi formati della famiglia Magnum oversize, in quattro colori, permettono di comporre soluzioni volumetriche inusuali dal forte valore architettonico.

## STONTECH/4.0

Designing projects is an ongoing process of reflection in which a logical path is followed, while leaving room for the emotions.

That's why Floorgres has decided to redesign the STONTECH range, which has long been a part of its way of interpreting living spaces. New surfaces, new sizes and 3 different finishes tell a contemporary tale with careful attention paid to the detail, in accordance with the brand philosophy.

Two high-gloss finish marbles give the range rays of precious light and the large sizes belonging to the Magnum Oversize family, in four colours, enable solutions to be created with unusual volumes and a considerable architectural content.

## STONTECH/4.0

Concevoir est un processus de réflexion permanent vers un parcours logique qui laisse libre cours aux émotions, raison pour laquelle Floorgres a décidé de revisiter la série STONTECH qui accompagne depuis longtemps sa façon d'interpréter l'habiter. De nouvelles surfaces, de nouveaux formats et trois finitions différentes qui composent un récit moderne et attentif aux détails comme le veut la philosophie de la marque .

Deux marbres à la finition ultra brillante embellissent la série de fragments de lumière raffinée tandis que les grands formats de la famille Magnum oversize, disponibles en quatre coloris, permettent de composer des solutions volumétriques inusuelles à forte valeur architecturale.

## STONTECH/4.0

Die Planungsphase ist ein permanenter Reflexionsprozess, bei dem man einen logischen Weg geht und gleichzeitig dazu Raum für Emotionen lässt. Deshalb hat Floorgres beschlossen, die Serie STONTECH neu zu gestalten, die seit geraumer Zeit ihre Interpretationslösungen für den Wohnbereich begleitet. Neue Oberflächen, neue Formate und 3 verschiedene Finishes bilden eine zeitgemäße Kollektion, bei der ganz nach der Philosophie der Marke die Liebe zum Detail im Vordergrund steht. Zwei hochglänzende Marmorsteine verleihen der Serie wertvolle Lichtfragmente. Die vier Farben der Großformate der Produktfamilie Magnum Oversize schaffen ungewöhnliche volumetrische Lösungen von hohem architektonischem Wert.

Diseñar es un proceso permanente de reflexión en el que hay que seguir una trayectoria lógica dejando espacio a las emociones y, precisamente por eso, Floorgres ha decidido volver a diseñar la serie STONTECH que desde hace tiempo acompaña su forma de interpretar la vivienda. Nuevas superficies, nuevos formatos y 3 acabados distintos componen una historia contemporánea atenta al detalle según la filosofía de la marca. Dos mármoles con un acabado high-glossy aportan a la serie fragmentos de una luz preciosa y los grandes formatos de la familia Magnum oversize, en cuatro colores, permiten componer soluciones volumétricas inusuales con un fuerte valor arquitectónico.

Создание дизайна интерьера – это процесс непрерывных размышлений, следующий определенной логике, в котором, конечно же, не могут не выражаться и эмоции.

Поэтому компания Floorgres решила переосмыслить дизайн коллекции STONTECH, издавна являющейся выражением ее концепции оформления жилья.

Новые типы поверхностей, новые форматы и 3 разных типа отделки повествуют о современности с особым вниманием к деталям в духе философии бренда.

Два типа мрамора со сверхглянцевой поверхностью дарят коллекции роскошную игру света, а четыре крупных формата серии Magnum Oversize, представленные в четырех цветах, позволяют применять в оформлении интерьера необычные решения, придающие его архитектуре дополнительную ценность.
